Dear Jack:

Nearly one year has passed since our police department was trained in PSR.

Many if not all the officers continue to speak highly of the applied value of the PSR tactical biomechanics training in Law Enforcement.

The defensive tactics trainer stated "this training taught me that 'mind and body was one' particularly in this work performance demand."

Since the training we have had a drop in Work Comp indemnity and medical of 75% and 60% respectively.

I look forward to working with you in training our Fire Safety personnel.

Sincerely,

Curtis Stephan
Risk Manager
